Successful conclusions at EMO 2015 in Milan

DMG MORI books orders worth € 106.9 million

Bielefeld. With order intake of € 106.9 million DMG MORI reports a positive outcome to the EMO 2015 in Milan, which closed on Saturday night. This significant leading trade fair for the machine tool industry was a complete success for DMG MORI.

DMG MORI presented 40 high-tech exhibits over 2,437 square meters, including 10 world premieres. With 13,433 specialist visitors, 78 % more customers and interested visitors were registered at the DMG MORI booth, compared to the previous EMO in Milan (2009). The main interest of the visitors lay in the innovations, forward-looking product trends, the industry 4.0 exhibits and in the latest version of CELOS. This app-based control and operating software simplifies and accelerates the process from the idea to the finished product. In addition, there was also a great response to the new ecoMill V series; the ECOLINE machines from DMG MORI offer turning and milling machining at a great starting price.

As a result of the 2015 EMO, DMG MORI sold products valued at € 106.9 million. 2,290 new requests, provide a good impetus for follow-up business.

The group will publish the financial results of the third quarter of 2015 on 29 October.
