PRESS RELEASE
Bielefeld, 4 February 2013 / PM 0102

Record visitors at open house exhibition in Pfronten

GILDEMEISTER receives orders worth € 150.5 million

Bielefeld. With order intake of € 150.5 million and 574 machines sold, GILDEMEISTER takes positive stock of the traditional open house exhibition in Pfronten. The results of the industry highlight, which ended on Saturday, confirm a satisfying demand.

At the open house exhibition in Pfronten, GILDEMEISTER presented a total of 72 exhibits, six of which were world premieres. From 29 January until 2 February, 6,078 trade visitors gathered information on the trend-setting technologies of DMG and Mori Seiki. Especially international visitors, mainly from Europe and Russia (share: 57%), contributed to the visitors record. The main areas of focus of the open house were industry-specific solutions for the “Aerospace”, “Automotive”, “Medical” and “Energy Solutions” industries. A further highlight was the automation area where flexible solutions from modular integration to automated mass production were displayed.

GILDEMEISTER expects a further boost to come from the forthcoming events in the Asian growth markets – the Timtos in Taiwan (5-10 March 2013), the Intermold in Korea (12-16 March 2013) and the CIMT in Peking (22-27 April 2013).

On 14 March 2013, GILDEMEISTER will publish its figures on business development in 2012.

Statements relating to the future: This press release contains forward-looking statements, which are based on current estimates of the management of future developments. Such statements are based on the management's current expectations and specific assumptions. They are subject to risks, uncertainties and other factors, which could lead to the actual future circumstances, including the assets, liabilities, financial position and profit or loss of GILDEMEISTER, differing materially from or being more negative than those expressly or implicitly assumed or described in these statements. The business activities of GILDEMEISTER are subject to a series of risks and uncertainties, which may result in forward-looking statements, estimates or forecasts becoming inaccurate. Should one of these factors of uncertainty or other unforeseeable event occur, or should the assumptions on which these statements are based prove incorrect, the actual results may differ materially from the results stated, expected, anticipated, intended, planned, aimed at, estimated or projected in these statements. Forward-looking statements must not be understood as a guarantee or assurance of the future developments or events contained therein.
