

DMG MORI

AKTIENGESELLSCHAFT

Focus on future topics: At the AMB in Stuttgart we presented 32 machines, thereof 13 with automation. We demonstrated high-precision additive construction with the LASERTEC 30 SLM 2nd generation. Alongside ADDITIVE MANUFACTURING and automation, a further highlight was the “integrated digitization”.

FAMOT`S DIGITAL PRODUCTION

- + Integration and digitization of all processes
- + Improving usage of production capacity
- + Reduction of reaction time

Production of the future: The production plant FAMOT in Poland was extended and continuously digitized. It was presented at the grand opening on 8 October. With this digital factory of the future DMG MORI is setting standards worldwide.
