AKTIENGESELLSCHAFT

Forecast 2020 slightly raised: “DMG MORI is resilient and future-proof. We succeeded in optimizing structures and costs during the crisis. We have also achieved a great deal in expanding our future fields – especially Automation, Digitization and Sustainability,” says Christian Thönes, Chairman of the Executive Board of DMG MORI AKTIENGESELLSCHAFT.

AKTIENGESELLSCHAFT

Most modern assembly line worldwide: The new monoBLOCK Excellence Factory went into operation at the beginning of September. Digitally and fully automated, it can now produce up to 1,000 machine tools per year. The core of the 4,000 m², highly modern flowline assembly in Pfronten is an automated guided vehicle (AGV) transport system. From 2021, DMG MORI will produce all machines worldwide completely climate-neutrally.
