

**Supplier Award in the category "Sustainability" granted for the first time**

## **DMG MORI honors TOP suppliers and partners**

**Bielefeld // At the pre-EMO show at DECKEL MAHO in Pfronten and this year's "DMG MORI Partner Summit", DMG MORI honored partners and suppliers – some virtually, some live – with the "DMG MORI Partner Award 2021". Five companies in particular impressed with their innovative and intensive cooperation: Siemens, Matsue Yamamoto, Pragati Automation and Fuchs Petrolub as well as Integrity Next.**

For the first time, the "DMG MORI Partner Award" was also handed out for excellent performance in the area of sustainability. Integrity Next's compliance platform offers consistent monitoring of holistic sustainability performance along the entire value chain. Today, more than 200 DMG MORI TOP suppliers are already using Integrity Next for their self-disclosure – by the end of the year, this number will rise to over 1,500.

Dr.-Eng. Masahiko Mori: "Suppliers and partners have a high priority at DMG MORI. They make a strategically significant contribution to our premium claim. DMG MORI has therefore focused on the highest quality, sustainability and innovation from the very beginning. Today's award winners have once again exceeded our high expectations."

Christian Thönes: "Stable partnerships are more important than ever in today's world. The technology shift – automation, digitization, sustainability – can only be managed together with strong partners. Resilience in the supply chain is a significant success factor."

In the run-up to EMO in Milan (October 4-9, 2021), DMG MORI presents a total of 25 completely climate-neutral high-tech machines at the Pre-EMO Show in Pfronten from September 20 to 25, 2021 – live on site and also digitally. The focus will be on more than 10 holistic automation solutions for workpiece and pallet handling with cell controller technology as well as the driverless transport system TH-AGV for autonomous tool transport between machines and the central tool magazine. Another highlight is the new digital subscription business model PAYZR. With "PAY with Zero Risk", customers benefit from fast innovation cycles without risk – with maximum flexibility, cost and price transparency and thus maximum planning reliability.

DMG MORI AKTIENGESELLSCHAFT  
The Executive Board

## Company Profile // DMG MORI

DMG MORI AKTIENGESELLSCHAFT is a worldwide leading manufacturer of machine tools with sales revenues of more than € 1.8 billion and around 6,700 employees. Together with DMG MORI COMPANY LIMITED, our sales revenues are around € 2.7 billion. Around 12,000 employees work for the "Global One Company". With 138 sales and service locations – including 15 production plants – we are present worldwide and deliver to more than 100,000 customers from 54 industries in 86 countries.

Our integrated automation and end-to-end digitization solutions enrich the company's core business with turning and milling machines, Advanced Technologies (Ultrasonic, Lasertec) and Additive Manufacturing. Our modular products allow quick, easy and scalable access to digital manufacturing and integrated digitization along the entire process chain – from planning and preparatory work to production and monitoring to service. **Our mission: Empower our customers in manufacturing and digitization.**

Our technology excellence is bundled within the main sectors of Aerospace and Automotive as well as Semiconductor, Medical, Die & Mold. The partner program DMG MORI Qualified Products (DMQP) allows us to offer perfectly matched peripheral products from a single source. Our customer-focused services covering the entire life cycle of a machine tool include training, repair, maintenance and spare parts service. The online customer portal "my DMG MORI" digitizes all service processes.

Already since May 2020 DMG MORI AKTIENGESELLSCHAFT has an equalized CO<sub>2</sub> balance (Company Carbon Footprint). All machines delivered since January 2021 are produced worldwide – along the entire value chain – completely CO<sub>2</sub>-neutral (Product Carbon Footprint).
