AKTIENGESELLSCHAFT

**Stable business performance:** DMG MORI AG closed the third quarter of 2023 on a solid basis. At EMO 2023 in Hanover (September 18-23), DMG MORI presented innovations relating to all four pillars of the “Machining Transformation” – Process Integration, Automation, Digital Transformation (DX) and Green Transformation (GX) – as well as four world premieres.

**Strong commitment:** Around 20 DMG MORI trainees actively provided support at the industry's leading trade fair EMO Hannover 2023. Right from the start, DMG MORI's training program focuses not only on future-oriented topics such as automation and digitization, but also on interdisciplinary experience and enables trade fair assignments as well as international exchanges.

**Support for young talent:** DMG MORI has focused on training for many years and regularly supports the WorldSkills and EuroSkills vocational championships. This year, DMG MORI Polska also sponsored and supported the young machinist Rafał Rygalik who won the gold medal in CNC milling at EuroSkills Gdańsk in September 2023.
